ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

February 1, 1952

To the School Board of Candia:

Mrs. Ethel M. VonHagen
Miss Nancy G. Duran

Transporter, Mr. Ellet L. Seavey

State Aid to Education

After the legislature adjourned for the summer and after the State Aid for schools had finally been passed into law, the formula was worked out which allowed many towns in the State to get some much needed help. Candia was one of the fortunate ones and was the recipient of $10,662.88. These receipts were based on the 1950 adjusted valuation.

According to the best advice we are able to get, it would seem that this amount will be forthcoming next year since

the amount was raised each year for that purpose and barring any unforeseen emergencies. In view of the increase in tuitions for high school students, this will prove a great help to the district.

Enrollments

The following chart shows briefly the total enrollment of pupils in the Moore School from 1946-47 to 1951-52. Because of the census report we are able to estimate quite closely the number which will be enrolled next year, 1952-53. The last column on the chart gives that estimate.

Grades	1946 1947	1947 1948	1948 1949	1949 1950	1950 1951	1951 1952	1952 1953
1	17	16	19	31	22	29	28
2	15	18	14	27	32	22	24
3	14	20	22	14	27	32	22
4	12	13	12	22	22	27	32
5	15	15	13	19	23	22	26
6	14	12	11	15	17	23	22
7	11	11	14	11	21	14	22
8	17	12	13	17	15	20	14
Totals	115	117	118	156	179	189	190

With the construction of two new classrooms and the electing of two more teachers, the so-called assembly hall downstairs has been eliminated except for a small space where visual education and the school lunches are in evidence. Every class now has its own or separate teacher varying in size from 22 pupils to 32 pupils except in grades seven and eight which are in combination. If you will note from the chart you will find that there are 34 pupils in these combined seventh and eighth grades. This has been a temporary measure only since next year there will be 36 in this combination; the following year 44; after that for each year will be 48, 58, 54, 46, and 52 pupils. On the strength of what was done this year in construction, it becomes necessary to call your attention to the fact that in the summer of 1953-54 arrangements must be made to enlarge the present school building and elect another teacher if the pattern of distribution is to continue as at the present time. No teacher regardless of efficiency and understanding can possibly do justice to from 48 to 58 boys and girls in one room.

That is the picture as it looks today concerning the housing problem in the Candia School.

The Budget

After studying the proposed budget in comparison with the budget for this year and that for 1950-51 together with the expenditures, you will undoubtedly recognize the fact that new construction, tuition, and teachers' salaries overshadow all other items. Of course, these items are more or less interdependent and when one changes the others will also. However, probably the one item in the modern school budget which should cause the School Boards and taxpayers the gravest concern is that of tuition.

In the past five years tuition rates have advanced from about $125 per pupil to Manchester where the bulk of the Candia youth attend high school, to an amount of $275 per pupil for the next school year—1952-53—120 percent. And, of course, with the increase in enrollments this means more graduating from the elementary school requiring an increase in the number of teachers, books, supplies, health supervision, per capita tax, and many other items.

The time is not too far distant when Manchester and other secondary schools in the vicinity are going to refuse to take any more boys and girls from towns like Candia, Hooksett, Auburn, and others unless, maybe, they are in the upper 20 percent of their classes and have attained an average "rank" of 85 percent or better. Many colleges are still doing just that and have been for years.

This would mean, then, that 80 percent of all graduates from the elementary schools of the smaller towns would have to forego the chance to receive a high school education.

Already it has been projected into the minds of school boards and citizens of the State that the only solution to the present philosophy that in America education is for all the children of all the people is consolidation of school districts; consolidation of school districts would mean the building of secondary or high schools with the burden of financial costs distributed throughout the consolidated area.

This is really the first time this matter has been called seriously to your attention and probably nothing can or will be done about it until the financial burden becomes too great to bear or your children are refused the right of a high school education because of inadequate housing in your own or nearby secondary schools.

The State Department of Education is more than willing to help each and every district solve its problems and espe-

cially this grave problem of a high school education for the boys and girls of the State. Arrangements may be made for public hearings and special meetings to discuss and explain consolidation of school districts. It is a very important problem in education in the State of New Hampshire today and warrants your immediate thought.

May I thank the members of the School Board, the citizens of the town, the teachers, the children, and any others connected in any way with the educational growth of the boys and girls of the community for their help and guidance in trying to solve the many problems involving the organization, administration, and maintenance of the school.

Let us hope that the coming year will bring a permanent peace to the world and to our American way of life.

Respectfully submitted,

MURRAY H. WATSON,
Superintendent of Schools.
